

Course Title: Middle School (MS) Bible

Description:

The Bible has never been more accessible. The average Christian home owns multiple copies of the bible and probably has at least one Bible app on their favorite device. Scripture is readily available, yet biblical literacy is arguably at an all time low. My desire is to help the next generation make that not true.

This class will be divided by semester. We will spend the first semester walking through the Attributes of God. This portion of the class will focus on who God is at the core of his being. Attributes like his holiness, uniqueness, immutability, eternality, love, and mercy. All of Scripture will be searched as we dive into the deepness of God. The second semester will be spent on looking into Matthew 5 & 6, the Sermon on the Mount. Our focus will be in light of who God is how are we to serve him faithfully as believers in Christ?

The goal of this class is not to overburden the student with homework or busy work. The grades will be assessed by class participation which will mean they need to keep up with the reading of scriptures each week. They will also be required to keep a notebook to show their notes from our class discussions.
