

Course Title: High School (HS) Home Economics

Description:

Digging a little deeper, high school students will enjoy practical teaching and fun activities, and labs while learning, preparing for life and thinking about a career. Home economics and consumer science is an important part of good health, healthy living, and community membership. Our goal is to prepare students to achieve success in their endeavors while acting as responsible adults – joyful in life, supporting themselves financially, and contributing to healthy family relationships.

Bellevue Tutorial's HS Home Economics class will cover the typical home economics topics such as culinary arts, family management, and home and clothing care. Additionally, students will address adult living and life topics like basic management and planning processes, organization, decision-making skills, communication, managing time, goals, and career planning.

Recommended Grades: 9 – 12

Prerequisites: none

Thursdays 12:20 – 1:50 PM ; 32 weeks

Minimum 6 students required to start
