

Course Title: French 2 (*1.0 high school credit*)

Description:

Bienvenue à Français!

This course continues to build on the foundation of French language and culture that began in French 1. Students will continue to grow in their French pronunciation, grammar, and culture studies through the development of all four language skills: listening, speaking, reading, and writing. During our weekly class time, the students will actively participate in acquiring their new skills through various combinations of dialogues, oral presentations, projects, group activities, and the use of the class textbook. By the end of the course, the student should be able to communicate effectively at a basic level with other French speakers as well as read and write sentences. To gain the most from this course, students will continue their studies at home during the week outside of our class time. My goal is to make class time fun and engaging to give the students a taste of my love for this country and its culture as well as empower them to communicate effectively with people around the world.
