

Course Title: Space and Earth Science

Description:

This highly popular middle school science course offers our middle school students experience in exploring how the world around us works from a scientific point-of-view. Emphasis will be given to the study of history of the earth; the soil, rocks, and fossils; oceans, seas, lakes, and rivers; the atmosphere; and space. In preparation for high school science courses, students will be introduced to the practice of scientific inquiry, reaching evidence-based conclusions, and communicating results.

Prerequisites: Grade 7+

Tuesdays 8:30 – 10:00 AM; 32 weeks or

Thursdays 8:30 – 10:00 AM; 32 weeks

Minimum 6 students required to start

Textbook: Provided on loan
