

**Course Title: Space and Earth Science****Description:**

This highly popular middle school science course is back to offer our 2019-20 middle school homeschooler group experience in exploring how the world around us works from a scientific point-of-view. Emphasis will be given to the study of history of the earth; the soil, rocks, and fossils; oceans, seas, lakes, and rivers; the atmosphere; and space. In preparation for high school science courses, students will be introduced to the practice of scientific inquiry, reaching evidence-based conclusions, and communicating results.

Prerequisites: Grade 7+

Thursdays 2:00-3:30 PM – Starting August 8; 32 weeks

Minimum 6 students required to start

Textbook: Provided on loan

Space and Earth Science Student Text, BJU
