

MAINTENANCE SCHEDULE

Monthly

Date last Completed / Mileage

BRAKES	Check fluid level. Report any issues when stopping. (vibration, weak pedal, etc.)				
OIL	Check level on dipstick and add as needed. Change every 3000 to 5000 miles.				
TIRES	Check air pressure cold (not driven for at least 3 hours). Inspect tread for wear.				
RADIATOR/ COOLANT	Check antifreeze level in radiator/reservoir. Add as needed. If significant, check for leaks.				
LIGHTS	Check all lights (headlights, brake, parking, turn signals, backup) for correct functionality.				
HOSES/BELTS	Inspect hoses for leaks/bulges. Check belts for cracks/wear.
